

31 December 2018

The fund (before charges and tax) aims to provide a return in line with that of the MSCI World ex UK index (the Index) allowing for reinvestment of dividends. In order to meet its aim, the fund invests in index tracking funds designed to track major regions of the world's stock markets, excluding the UK. The proportion held in each tracker fund will be in alignment with that region's proportion of the Index. The return of the fund will be affected by exchange rate fluctuations.

Please note the underlying assets in this fund are predominantly managed by Vanguard Asset Management, a leading global provider of tracker funds.

The value of investments within the fund can fall as well as rise and is not guaranteed - you may get back less than you pay in. The fund may use derivatives for the purposes of efficient portfolio management, reduction of risk or to meet its investment objective if this is permitted and appropriate.
