

31 December 2018

The fund aims to provide long term growth whilst investing in a diversified portfolio of assets (including equities, bonds, property, cash deposits and money market instruments) in order to reduce the risk associated with being solely invested in any one asset class. These assets can be from overseas and Ireland. The fund is predominantly equity based and is actively managed by our investment team, who will vary the proportions held in each asset class to try to take advantage of opportunities they have identified.

The value of investments within the fund can fall as well as rise and is not guaranteed - you may get back less than you pay in. The Fund and its holdings may use derivatives for the purpose of efficient portfolio management, reduction of risk or to meet its respective investment objective if this is permitted and appropriate. The euro value of overseas assets held in the fund may rise and fall as a result of exchange rate fluctuations.
