

31 January 2019

The fund aims to provide a balance of long term growth with some income over the longer term by investing in a relatively concentrated portfolio of shares of companies listed on the UK stock market. The fund may also invest in UK smaller companies. The fund is actively managed by our investment team, who will select stocks to try to take advantage of opportunities they have identified.

Past performance is not a guide to future returns and future returns are not guaranteed. The price of assets and the income from them may go down as well as up and cannot be guaranteed; an investor may receive back less than their original investment. The fund may use derivatives to reduce risk or cost, or to generate additional capital or income at low risk. Usage of derivatives is monitored to ensure that the fund is not exposed to excessive or unintended risks. The value of assets held within the fund may rise and fall as a result of exchange rate fluctuations.

Fund Performance *

Price Indexed

The performance of the fund has been calculated over the stated period using bid to bid basis for a UK basic rate tax payer. The performance shown is based on an Annual Management Charge (AMC) of 0.75%. You may be investing in another shareclass with a higher AMC. The charges for different share classes are shown on the next page. For details of your actual charges please contact your financial adviser or refer to the product documentation.
