

31 December 2018

The fund aims to provide income and capital growth by investing predominantly in UK real commercial property, selected from across the retail, office, industrial and other sectors. The fund is actively managed and will typically invest in a mix of freehold and leasehold properties. The fund may also invest in other property related assets including shares, bonds and other property funds. The fund may also invest in cash, short term government bonds as well as gilts. Selling property can be a lengthy process so investors in the Fund should be aware that they may not be able to sell their investment when they want to.

Past performance is not a guide to future returns and future returns are not guaranteed. The price of assets and the income from them may go down as well as up and cannot be guaranteed; an investor may receive back less than their original investment. The fund may use derivatives to reduce risk or cost, or to generate additional capital or income at low risk. Usage of derivatives is monitored to ensure that the fund is not exposed to excessive or unintended risks.

OEIC Fund

Property Fund

Monthly

This document is intended for use by individuals who are familiar with investment terminology. To help you understand this fund and for a full explanation of specific risks and the overall risk profile of this fund and the shareclasses within it, please refer to the Key Investor Information Documents and Prospectus which are available on our website – [www.standardlifeinvestments.com](http://www.standardlifeinvestments.com).

Aberdeen Standard Investments has not considered the suitability of investment against your individual needs and risk tolerance. If you are in any doubt as to whether this fund is suitable for you, you should seek advice. An adviser is likely to charge for advice. We are unable to provide investment advice.

<sup>^</sup> The Net Current Assets figure includes cash or cash equivalents and any short term assets and liabilities within the fund.

<sup>\*\*</sup>Peer Group comprises of 10 comparable UK Commercial property funds in the IA Property Sector. With effect from 6 May 2014 the UK Real Estate Fund converted from a Unit Trust to an OEIC and elected to operate as a PAIF (Property Authorised Investment Fund).

The fund employs a single swinging pricing methodology to protect against the dilution impact of the transaction costs. Due to the high transaction charges associated with the fund's assets, a change in the pricing basis will result in a significant movement in the fund's published price.

## Fund Performance \*

### Price Indexed

The performance of the fund has been calculated over the stated period using bid to bid basis for a UK basic rate tax payer. The performance shown is based on an Annual Management Charge (AMC) of 0.75%. You may be investing in another shareclass with a higher AMC. The charges for different share classes are shown on the next page. For details of your actual charges please contact your financial adviser or refer to the product documentation.

Performance prior to 18 March 2016 relates to the Standard Life Investments Ignis UK Property Fund.

Note: Past Performance is not a guide to future performance. The price of shares and the income from them may go down as well as up and cannot be guaranteed; an investor may receive back less than their original investment.

Performance prior to 18 March 2016 relates to the Standard Life Investments Ignis UK Property Fund.

\*Platform 1 share class performance from 21/03/2016. Retail accumulation share class to 21/03/2016.

\*\*Since 30 September 2018 Sector Benchmark changed to IA UK Direct Property from IA Property Sector (UK Direct).

For full details of the fund's objective, policy, investment and borrowing powers and details of the risks investors need to be aware of, please refer to the prospectus. For a full description of those eligible to invest in each share class please refer to the relevant prospectus.

The fund does not have an index-tracking objective.

#### Definitions

The Average Lease Length is the weighted average (by estimated rental value, "ERV") of all contracted income within the fund. ERV refers to the rent that a particular asset would be expected to achieve if it were to be re-let in current market conditions.

Current Historic Yield - this represents the income generated by the assets in which the fund has been invested over the last twelve months, expressed as a % of the fund's value. Please note that this income stream may be subject to taxes and charges.

The vacancy rate represents the sum of all assets within the fund's portfolio which do not generate rental income. It is expressed as a percentage of the total portfolio estimated rental value, ERV, which is the sum of rental income that the portfolio would be expected to achieve if all assets were to be re-let in current market conditions.

Ongoing Charges Figure	1.31%	0.84%	0.87%

The Ongoing Charge Figure (OCF) is the overall cost shown as a percentage of the value of the assets of the Fund. It is made up of the Annual Management Charge (AMC) shown above and the other expenses taken from the Fund over the last annual reporting period. It does not include any initial charges or the cost of buying and selling stocks for the Fund. The OCF can help you compare the costs and expenses of different funds.
